

Negotiations Update
December 5, 2017

ETA and the District negotiating teams met today.

The District continues to assert the need to realize savings with negotiable items. Their suggested options include: reduction or elimination of prep, increases in class size, reduction or elimination of TK/K aides, and changes to benefits and Trust funding.

The Evergreen Teachers Association, in good conscience, will not consider cuts that would adversely affect students and teachers if the District has not first exhausted all other available options.

Teams will meet again on Tuesday, January 23rd.
