Training for Elected K-12 School Board Members on New Charter School Legislation

PRESENTED BY California Teachers Association, In The Public Interest, Working Partnerships USA and Educate for the Future

Several significant changes were made to California’s Charter Schools Laws in the 2019 Legislative Session – come learn about what changes were made, and how to ensure that your district is implementing them.

AB1505 made significant changes to charter authorization, renewal and appeals. Districts are now allowed to consider the fiscal impact of new or expanding charters to the district, as well as whether a new charter school is in the interest of the entire community. This new law also created clearer guidelines around charter renewal criteria, as well as limiting the role of the State Board of Education in the appeals process. Find out more about how to most effectively implement these provisions.

Learn about new anti-discrimination, transparency and public access laws and how to ensure your district is enforcing them.

This webinar is being offered to current Board Trustees. We will be offering this webinar on the following dates:

Wednesday, May 6th
3:00 PM – 5:00 PM

Or

Thursday, May 14th
10:00 AM – 12:00 PM

Participation by Invitation Only

To participate you will need to RSVP. Following registration, you will receive information on how to participate in the webinar.
